

Technical Consultant

SOFGEN is a niche consultancy group specializing in private, commercial and retail banking with a worldwide presence. Founded in 1999, SOFGEN's highly skilled business and technical consultants possess decades of experience with fully integrated international banking software and enable us to provide high value added services.

We enjoy a worldwide reputation, based on reliability and quality of delivery. To supply the strong demand that we are facing, and strengthen our local teams, we are looking for a Technical Consultant

This role will involve the following main responsibilities:

- ✓ Liaise with the business subject matter experts and help develop business requirements.
- ✓ Translate business requirements into functional and business requirements.
- ✓ Develop good working relationships with users, external clients and other members of staff.
- ✓ Communicate the ideas and findings from your work through written, graphical or oral presentation.
- ✓ Time and Task Management – Planning and project managing the outputs and priorities for oneself.
- ✓ Application Delivery/System Management – Ensuring integrity and quality of applications and systems to appropriate group standards.
- ✓ Customer Service – Managing internal customer contacts with a commitment to delivery of excellent customer service.
- ✓ Problem solving and decision making – identifying and analysing issues and problems, developing solutions and using sound judgment to make decisions.
- ✓ Demonstrate commitment to the collective output of the project team.
- ✓ Develop in-depth knowledge of broad range of business areas of the bank.
- ✓ Deliver quantitative and qualitative analysis in which the inputs and outputs are clear, reliable, dependable and well documented.

Required skills and experience:

The ideal candidates will have the following profile:

- ✓ Proven track record of contribution and delivery within banking industry projects.
- ✓ Solid knowledge of retail, corporate and private banking
- ✓ Ability to manage mini-projects, as part of the larger project delivery.
- ✓ Demonstrate exposure to the full development life cycle, including writing functional and business specifications undertaken at other banks.
- ✓ PLSQL knowledge.
- ✓ SCRUM methodology knowledge.
- ✓ Avaloq system knowledge is a plus.
- ✓ Language fluency in English and French.

Other requirements:

- ✓ Available to join the team at short notice.
- ✓ Swiss C,B or G working permit.

If you have the required competences and you identify yourself with words such as flexibility, dedication and challenges, then we look forward to receiving your letter of application and your curriculum vitae.
