

## Temenos T24 Consultants in Canada

**SOFGEN** is a niche consultancy group specializing in private, commercial and retail banking with a worldwide presence. Founded in 1999, SOFGEN is a certified Avaloq and Temenos business partner. Our highly skilled banking and technical consultants possess decades of experience with fully integrated international banking software and enable us to provide high value added services.

**SOFGEN** Americas Inc., a division of SOFGEN, located in 880 Apollo Street, Ste 357, El Segundo, CA, USA has been retained to implement a Temenos T24 banking software platform for a client located at 1598 6th Avenue, Prince George, British Columbia, V2L 5B5, Canada. We currently have a need for 5 Temenos T24 Banking Consultants (both Business & Technical) across the range of T24 applications for this project. These are full-time, contract-based positions for an 18 month term. Consultants will be based at the client's site in Prince George, British Columbia for the duration of this project.

### **These roles will involve the following responsibilities:**

- ✓ Conducting a technical review of the client's systems
- ✓ Delivering workshops to client IT and development teams to identify current system configurations and identify changes required by new Temenos T24 system requirements
- ✓ Delivering technical training to client IT team with emphasis on Temenos T24 best practices
- ✓ Conducting technical design reviews and local code analysis
- ✓ Engaging in Temenos T24 product testing and quality checks along with system performance reviews
- ✓ Documenting the client's system architecture and technical specifications
- ✓ Migrating data to the Temenos T24 banking software platform
- ✓ Providing Temenos T24 post-implementation live support
- ✓ Liaising between functional teams and developers
- ✓ Conducting development estimations and quality assessments of unit testing
- ✓ Engaging in product testing and quality control
- ✓ Preparing product guides regarding the use, operation and functionality of the Temenos T24 software platform
- ✓ Engaging in local source control and data library management
- ✓ Performing business reviews and implementing local clearing and payment systems

### **To be eligible for this role, candidates must have:**

- ✓ A minimum of 5 years' experience implementing and enhancing Temenos T24 Banking software. Preference will be given to candidates with experience with the latest release of T24.
- ✓ A track record of success in back office system implementations for financial institutions.
- ✓ Proven ability to analyze software system requirements and provide recommendations on technical architecture and system conversions.
- ✓ Work will be conducted in English language.
- ✓ University degree.

**Wages and benefits:** Consultants will be paid a monthly wage of CAD\$7000 to CAD\$8500, depending on experience. **SOFGEN** will provide consultants with flights to client site and accommodations in Prince George, medical insurance, and 10 paid vacation days per year.

**Interested candidates may send their resumes to [hrcanada@sofgen.com](mailto:hrcanada@sofgen.com)**
